Mr Joe Legare
Assistant Manager for Environment and Stewardship
U S Department of Energy, Rocky Flats Project Office
10808 Highway 93, Unit A
Golden, CO 80403-8200**RE Building 964 notification of intent to invoke the Facility Component Removal, Size Reduction, and Decontamination Activities RSOP (Component RSOP) - concurrence**

Dear Mr Legare

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has received your April 21, 2004 letter (received on April 27, 2004) notifying us of your intent to utilize the Component RSOP for component removal and closure of RCRA Unit 24 associated with B964. We are hereby concurring that this activity may proceed utilizing the Component RSOP, and as described in the Closure Description Document provided.

We are aware that this building has yet to be officially typed through the completion and submittal of a RLCR. Building 964 was thought to be a Type 1 facility until preliminary RLC data identified radiological contamination, and a preliminary Type 2 designation was applied to B964 pending completion of, and concurrence with, the RLCR. It is our understanding that the impermeable coating was applied to the floor prior to utilizing B964 or this RCRA Unit for hazardous waste storage, that there are no records of spills, and that all liquid wastes were placed on individual secondary containment pans and not directly on the impermeable coating. As such, our concurrence is based on the understanding that this cleanup and closure of the RCRA unit needs to occur and will not change or remove the radiological contamination that resides on the exterior of the building as well as possibly under the coating, and is therefore not intended to be a radiological decontamination effort prior to actual Typing of B964.

It is also our understanding that the RLCR is to be completed forthwith, and that based on the data collected to date, B964 is expected to be identified as a Type 2 facility.

If you have any questions regarding this correspondence please contact me at (303) 692-3367, David Kruchick at (303) 692-3328.

Sincerely,

Steven H. Gunderson
